Research Insights

The engineering sector is the largest of the industrial sectors in India. It accounts for **27%** of the total factories in the industrial sector and represents **63%** of the overall foreign collaborations.

Based on our research:

- The overall rating of 3.6 is almost equally distributed between all 5 pillars of assessment, which indicates that there is equal balance of contribution to culture.
- 8 in 10 people have had a satisfactory experience within the organisation
- While there is an equal distribution between all pillars of assessment, more than 30% of people believe that there is room for improvement in company management.
